

# NATIONAL SAFETY MONTH

JUNE 2020

## Signal Administration: Operational Alerts

At Signal, we strongly believe that knowledge sharing amongst our Membership plays an instrumental role in creating safer workplaces with less incidents across the Association. We embrace this mentality in multiple ways, including our Operational Alerts. These bulletins inform our Members of a serious incident within the Mutual which has resulted in a permanent disability, death or significant near miss. Compiled by our Safety Team, we strive to issue these alerts as soon as we are made aware of an incident. We provide as much information as we can about the occurrence, pictures to illustrate the scene, and most importantly what could have been done differently to avoid the situation. These alerts are then sent from each of our respective Members from their Signal Safety Manager, with the goal that management at all levels review this document with their teams and look for potential similar hazardous conditions within their own workplace.

Imbedding a culture of workplace safety within our Membership is the foundation of success for both the Mutual and our Members. By continuing to share best practices amongst our Association, we hope to avoid accidents, reduce claims, and most importantly keep employees safe.

We encourage you to view the Safety section of our website for all of our resources, including past Operational Alerts, and leverage these within your individual workplaces.

About the Author: Michelle Cleary, Marketing and Communications Manager, Signal Administration

Michelle is a responsible for publishing all communications for the Signal Membership and helps support the Signal Safety Team with the resources that they require to support Members. Michelle also runs the social media platforms and Signal Website, focusing on sharing updates from the Mutual, celebrating successes across our Membership, and providing timely and valuable publications on both the industry and Signal itself. The monthly Soundings newsletter is also compiled by Michelle. We are always looking for submissions and news to share across all of these platforms and encourage you to reach out with anything you'd like us to feature!
